

Gender Marker Change

Date: 21/05/2025

Name: Poulomi (Poulomi) Quazi

Address: Station Rd, Harrow, UK, 82A Urquhart Road, Karnataka, London, 560006, United Kingdom

Date of Birth: 08-03-1997

To Whom it may concern,

They have been through a multidisciplinary assessment process and fulfill the criteria for gender incongruence according to the ICD-11 classification and HA60 "Gender incongruence of adolescence or adulthood" and wish to update their legal documents to support and affirm their gender identity.

Gender incongruence of Adolescence or Adulthood is characterised by a marked and persistent incongruence between an individual's experienced gender and the assigned sex, which often leads to a desire to "transition", in order to live and be accepted as a person of the experienced gender, through hormonal treatment, surgery or other health care services to make the individual's body align, as much as desired and to the extent possible, with the experienced gender.

As a result, they are applying to have their gender markers changed on their legal documentation, and this letter supports that application. The change is intended to be permanent, and we have no reason to believe that this won't be the case.

Your assistance in making the relevant changes to your records and to issue new documentation and preserving full confidentiality would be appreciated.

Yours Sincerely,

Test Doctor2
